

ARIA REPORTS, NOTIFIABLE DISEASES, AND STATE-PURCHASED VACCINES

Satellite Conference and Live Webcast

Thursday, September 15, 2016; 1:00-3:00 p.m. (Central Time)
2:00-4:00 p.m. (Eastern) ■ 12:00-2:00 p.m. (Mountain) ■ 11:00 a.m.-1:00 p.m. (Pacific)

Automated Report of Incidents and Accidents (ARIA) reports are reported, recorded, and analyzed as opportunities for improvement. In addition, some protocols are revised, some are removed because they are outdated, and others remain the same. As programs grow and change, so will the protocols, procedures, and resources. The Immunization Division is in the transition of growing and improving. The ARIAs assist us all with ways to increase or maintain true public health. This program will provide beneficial information for public health staff to know when responding to a parent/patient regarding vaccine information.

FACULTY:

Karen Landers, MD, FAAP

Interim Assistant State Health Officer
for Disease Control and Prevention
Area 1 Health Officer

Betty Helms

Administration Branch Director
Immunization Division

Alabama Department of Public Health

PROGRAM OBJECTIVES:

1. Discuss the various vaccine administration errors and events.
2. Offer suggested solutions.
3. Understand who should report notifiable diseases.
4. Learn how to order state-purchased vaccine.
